

Residential Rebate Program

Laclede Gas offers residential customers rebates to help make upgrading to more energy efficient equipment easier. The following rebates are effective for equipment purchased and installed after May 1, 2015. Laclede Gas rebates may be combined with other available manufacturer rebates.

Equipment	Rated	Rebate
Programmable Thermostat	7-Day Programmable	\$25 or 50% of the equipment cost whichever is lower
Gas Furnace	≥ 96% AFUE	\$300
Gas Furnace	92% < 96% AFUE	\$200
Integrated Space and Water Heating System	Tank system: ≥ 90% AFUE	\$450
Integrated Space and Water Heating System	Tankless system: ≥ 0.82 EF	\$450
Tankless Gas Water Heater (less than 2 gallons)	≥ 0.82 EF	\$300
Gas Water Heater (56 - 100 gallons)	≥ 0.77 EF	\$350
Gas Water Heater (20-55 gallons)	≥ 0.67 EF	\$200

Annual Fuel Utilization Efficiency (AFUE) and Energy Factor (EF) ratings measure how efficiently a unit converts energy into heat as well as how much heat is lost during storage.

How It Works:

1. Select qualifying high-efficiency equipment from the list above.
2. Purchase and install your new qualifying equipment. Save all receipts and product information. Eligible equipment must be purchased and installed in a residence with an active Laclede Gas account.
3. Apply online or download the application form and mail in a copy of your contractor's invoice with complete manufacturer and model numbers and/or store receipt(s).
4. You'll receive your rebate check in about 4 to 6 weeks.

What You'll Need To Apply:

- Your 10-digit Laclede Gas Account Number
- A copy of a dated sales receipt/invoice showing manufacturer, model #, price and date of purchase
- We also ask for (but do not require) an estimate of the age and efficiency of equipment you've replaced. Your contractor can help you with this information if you cannot locate it.
