## Terms and Conditions

Water heaters must have a qualifying Energy Factor (E.F.) rating or Uniform Energy Factor (U.E.F.) rating. Water heaters with a Thermal Efficiency (T.E.) rating are not eligible.

Owners of, or customers living in, an individually metered dwelling unit, are eligible to participate in this program and must apply for rebates through **Energy Federation Incorporated (EFI)** with or without the assistance of your heating, ventilating, and air conditioning (“HVAC”) contractor.

## Rebate Limit

Individual dwelling units, as determined by account number, whether owner-occupied or rental property, are eligible for a maximum of two heating system rebates (furnace/boiler), two water heater rebates, or two integrated system rebates, and two programmable setback thermostat rebates under this program.

Owners of multiple individually metered dwelling units are limited to a maximum of 250 heating system rebates (furnace/boiler), 250 water heater rebates, or 250 integrated system rebates, and 250 programmable setback thermostat rebates, during one program year. A program year runs from October 1 – September 30.
